Overview

As part of ISO 27001 compliance, SAI Global maintains a set of policies, standards, guidelines and procedures that include all controls in place related to its information risk management processes.

This document lists SAI Global's Information Security Management System (ISMS) documents, including documents that are mandatory by the ISO 27001:2013 Standard.

SAI Global considers its Policies, Procedures and Standards as confidential intellectual property and in some instances external access would pose a significant risk to our information security. As such we limit the availability of such documents directly to Customers. SAI Global will allow Customers and or the Independent Auditors of our current Customers to view in full Confidential Documentation/Evidence of Compliance on request either on site, or via an Online Meeting screen share after completion of a Non-Disclosure Agreement (NDA).
