Overview

As part of ISO 27001 compliance, SAI360 maintains a set of policies, standards, guidelines, and procedures that include all controls in place related to its information risk management processes.

This document lists SAI360’s Information Security Management System (ISMS) documents, including documents that are mandatory by the ISO 27001:2013 Standard.

SAI360 considers its Policies, Procedures and Standards as confidential intellectual property and in some instances external access would pose a significant risk to our information security. As such we limit the availability of such documents directly to customers. SAI360 will allow customers and or the Independent Auditors of our current customers to view in full relevant Information Security Management System (ISMS) documentation on request either on SAI360 site, or via an Online Meeting screen share or 'Read Only' access via SAI360 SharePoint for nominated personnel for a limited period under a Non-Disclosure Agreement (NDA).
