Updated: May 11th, 2026

Safe Harbor Statement

This presentation may contain certain statements that may constitute forward-looking statements. The contents of this presentation are based on currently available information as of the time the statements are made. Any developments or projections of future activity or forecasts of the company's results are subject to the risk that they may not occur.

SAI360 undertakes no obligation to revise or update publicly any forward-looking statements.

Recent Releases

- Automated Tooling for Data Retention Policies
- Accessibility Improvements in Support of Federal Requirements
- Improved Integrations & Data Synchronization
- Regulatory Content Integrations
- AI File Summarization

Current & Future Focus

Now

Contextual Policy Searching (AI)

Enable faster policy lookup based on scenario descriptions and context

Conflict of Interest: Workflow Efficiencies

Enhanced workflow for COI

Auto-Generate Secure & Reportable Hyperlinks

Automate conditions determining when direct content access is needed and provide easy mechanism to distribute access links to appropriate users

Expand Regulatory Content Library

Offer additional Regulatory Content Integrations in addition to the existing "Core 4"

Next

Real-Time Multi-Authoring of Office 365 Files

Enable multiple authors to collaborate at the same time on a given file

Automate PDF Field Extraction (AI)

Auto-populate the meta data from a file and pre-populate form fields for human review

Improve Performance Monitoring

Invest in our monitoring infrastructure to improve our proactive identification of actions not meeting performance SLAs
